Group 26   Date: October 29, 2022,   Time: 17:30   Duration: 120 Minutes

Present, on time: Kenan Alghythee, Harry Tan, Robert Malone, Youngsang Aum

Present, not on time: None

Absent: None

Synopsis:

-We Worked together on what was left of Requirements report, and we discussed the progress in the coding.

Recent Individual Accomplishments: Robert implemented the API for the access the information of each food item at the restaurants. Kenan implemented the user location using google service correctly now the apps track user location properly and return that information to be used.

Individual Action Items:

Robert: Test the implementation of the API for the Async requests.

Kenan: Parse the location into a class with a global object.

Harry: Update the UI for the a few screens for the application and perform testing.

Youngsang: Parse the JSON response and convert it into a class
